2011 Acura MDX recommended synthetic oil and filter

Your Acura's oil filter is in charge of removing harmful contaminants like dust, dirt, or metal shavings from your engines oil before they can cause any damage. Depending on your driving habits, as well as road conditions, oil filters should be replaced every 7,500 miles or so (this time frame can vary) to ensure an optimal level of performance, and to make sure your car lasts as long as possible.
