Cybersecurity Essentials v1.1 Chapter 3 Quiz Answers
Designing a network can be a challenging task. Your first step is to understand your networking requirements. The rest of this chapter explains how to determine these requirements. After you have identified these requirements, refer to Chapter 2 for information on selecting network capability and reliability options that meet these requirements.

Determining Your Networking Requirements > Introduction to ...
R1 and R2 are advertising the 172.16.1.0/24 and 172.16.2.0/24 networks. R3 is aggregating the routes into the 172.16.0.0/22 network range, which is advertised to all of R3's peers. Example 1-14 displays R3's BGP table. R1's BGP prefix 172.16.1.0/24 advertised to R3. Notice the AS-Path of 65100 and BGP Community of 100:100.
