## **Credit Scoring and its Applications | Request PDF**

It would seem that credit scoring has become a separate branch of computational finance, and given its importance and use throughout the credit industry this is not surprising. There have been many articles written on credit scoring since its inception in the 1950's, but until four years ago there has not been a book available on the subject ...

This paper is meant to be a guide for banks, microfinance institutions (MFIs), and donors who are considering applying credit scoring as part of their business model. The research team draws on the experience of microlenders from three continents to illustrate a four-step framework for designing and implementing custom credit scorecards.
