### Every Book Its Reader The

Every Book Its Reader continues Basbanes' familiar theme of the continuing importance of the printed word in today's society. It expands it by focussing on studies of the libraries of eminent booklovers of the past such as Edward Gibbon and through interviews with great living writers/readers like David McCullough and Harold Bloom.

### Every Book Its Reader: The Power of the Printed Word to ...

The five laws of library science is a theory that S. R. Ranganathan proposed in 1932, detailing the principles of operating a library system. Many librarians from around the world accept the laws as the foundations of their philosophy.. These laws are: Books are for use. Every reader his or her book. Every book its reader. Save the time of the reader. The library must be a growing organism.
