### Remote Systems Control Engineer 21st

The Space Systems Command (SSC) is the United States Space Force acquisitions and development field command and is headquartered at Los Angeles Air Force Base (LAAFB), California. It was first established as the Western Development Division on 1 April 1954 and is the oldest space organization in the U.S. Armed Forces.

### Space Systems Command - Wikipedia

The LonWorks® (by Echelon) is a powerful power-line communication technology for advanced street light systems. Power Line Communication (PLC) is a technology that enables sending data over existing power cables. This means that, with just power cables running to an electronic device (for example) one can both power it up and at the same time control/retrieve data from it in a half-duplex manner.
