The Next Generation Science Standards (NGSS) are K-12 science content standards. Standards set the expectations for what students should know and be able to do. The NGSS were developed by states to improve science education for all students. A goal for developing the NGSS was to create a set of research-based, up-to-date K-12 science standards.

Latent heat of fusion is the heat consumed or discharged when matter melts, changing stage from solid to fluid-structure at a consistent temperature. The 'enthalpy' of fusion is a latent heat, in light of the fact that during softening the heat energy expected to change the substance from solid to fluid at air pressure is the latent heat of ...
