Although the car in question was a 1970 Ford Maverick, these rules apply to most Ford and Mercury vehicles using a York or Tecumseh style compressor from the mid 1950's and into the early 1980's, and some late 50's to early 60's Mopar products.. Once the system is ready to be charged, the valve must be adjusted to the center seated position. (See figure 2) This position allows ...
